

Through #SaathNirbhar: Wellbeing Together, our Covid - 19 response, we impacted 6.2 Lakh people through relief, 6000+ people through wellbeing innovations in 70+ locations with 150+ organisations and their youth leaders in the last year.

We want to celebrate the solidarity that came from recognising the strength of our Saath Nirbhar community. However, this interdependence was not restricted to coalition alone. Through our own work on the ground, we have come across exceptional individuals and organisations whose COVID response work, particularly in the context of strengthening youth leadership, has been noteworthy. As a part of this growing movement of interdependence, we want to recognise such SaathNirbhar Saathis to celebrate the shared leadership that got us through these testing times and learn their stories through a series of (un)Conferences.
